

Dear Mr Daniel Zeichner,

As a student who was and will soon be living in your constituency, I would like to call your attention to an issue, which I believe is particularly worrisome.

It came to my attention that a British academic has been jailed for life by the UAE, without a due process preceding the sentencing. I encourage you to call for or to support the necessary measures to solve this situation.

I personally think that an amicable solution is the best, but I do think that this level of injustice needs to be retaliated severely if all other options fail.

I wish you the best in your job.

Best regards,

Pal Szabo

Dear Mr Iain Lindsay OBE,

As a student who was and will soon be living in the United Kingdom, I would like to call your attention to an issue, which I believe is particularly worrisome.

It came to my attention that a British academic has been jailed for life by the UAE, without a due process preceding the sentencing. I would like to express my view that the United Kingdom should do everything to solve this situation and prevent future events like this.

I personally think that an amicable solution is the best, but I do think that this level of injustice needs to be retaliated severely if all other options fail.

I wish you the best in your job, your Hungarian is still cool.

Best regards,

Pal Szabo
